If selected as a chapter leader, what key goals would you set, and how do you believe they would be achieved?

I would lead by example & advance the level of professionalism within ASID.

To improve the line of communication amongst the board & committees by sharing their input in open dialog & creating processes to implement.

Plan and organize new & fresh educational events especially in technology.

To encourage career advancement by developing small NCIDQ study groups.

Reaching out to the design community for their knowledge & experience in promoting ASID & their members.
