

## **Est Est Inc is seeking a full time interior designer & part time or full time interior design intern**

Est Est is looking for a full time designer with at least two years experience. Must have a degree in interior design, must be proficient in AutoCad and Microsoft Office programs. Experience with sketchup and Revit is a plus. This designer will be integrated onto existing jobs alongside other experienced designers right away.

Est Est is also looking for a part time or full time interior design Intern who is either in school or who has recently graduated. This intern would work primarily in autoCAD initially alongside the design team as they are trained with the potential of this growing into a full time design position.
